FINANCE AND TRADE.

OFFICE OF THE DAILY APPEAL, MEMPHIS, September 28, 1870. | EVIDENCES OF THEIFT. There is, perhaps, no better index of the guneral thrift of the people and their prosperity than is afforded by the growth of savings banks, and the increase of money therein deposited. We extract from the September num-ber of the Bankers' Magraine, the following summary of the returns of the savings banks of the six New England States: Savings Banks of New England. Number. Depositors ... Deposits. COTTON.

Count. 54 is 18.945 im. 802 30,255,400 47.948,834
R 1 55 35 56.457 67.385 21,413.685 27.697.692
Me 20 86 20,157 67.385 21,413.685 27.697.692
Me 20 86 20,157 25.589,800 10,489,2854
VI 10 10 11,584 14.265 2.607.693 21.607.685
VI 10 10 11,584 14.265 2.607.693 21.607.685
These six \* tates have an aggregate population of some 2,750,600, and the foregoing statistics thus give to each depositor an average of about \$2.55, or more than \$50 per capita to every man, woman and child within their borders. It will be seen that the depositors have increased more than \$60 per capita to every man, which were 145-316% for Middlings. at 165-316% for purchases carry in the day being at higher figures than those of the afternoon. Several buyers purchased small lists, and all seemed indispersable seemed in the seem that the depositors have increased more than fity per cent, in two years, which more than fifty per cent. in two years, which period has been marked by severe business depression in most of those manufacturing ludustries which afford the chief employment to
the laboring classes in the New England States.
Heccived since hat statement.
Heccived previously This speaks well for the thrift of the meases. in those States In our own State we have no fractive form. If any number of the leading | Stock at noon this day. men of Memphis will come together and establish a reliable medium of savings for the working classes, we have no doubt that in a year or two the result would be as flattering as year or two the result would be as flattering as year or two the result would be no flattering as year or two the result would be as flattering as that which we publish above of the New England savings banks. Who will make a begin- Estimated per wagons. VALUE OF RAW SILKS PRODUCED IN THE Memphis and Charleston R. R. Memphis and Ohio R. FIRST PREMIUM GEORGIA STATE FAIR.

Schofield's Patent Cotton Press

THIS PRESS must commend itself to the cotton planters of the Southern States durability, simplicity of construction, and ease with which it can be operated by hand, horse, scater or steam posser, the change from one to the other being effected in minutes. A great advantage this Press possesses is that occupies for hand power of the necessity of taking cotton out of the house to be packed. It can be used in any kill weather; the Press being in the house, rainy days are no obsented to packing, as is the case wooden screws. Another advantage is, when you get Scholield's Press, you have a Press all time, and one not liable to decay or brask, as is the case with the ord wooden set and most other iron screws and presses. This is evident from the fact that the screw is a time of the press of the planters may purchase either the screw and must one of the plant of the Press is to decay touches the ground. The frames may be made of wood, at the epition of the planter may purchase either the screw and nut alone sup put the frame and bo wood to it themselves, or may purchase the acrew, nut and from frames, and put the frame and box, making the most complete Press in use. Presses complete, as last natured, are in a general use, and give agreet satisfaction to all parties using them, as will be seen from left my possession, a lew of which may be found elsewhere in this circular, and could farr

claim for it.

Having the most extensive Iron Works in the city, and the greatest variety of patters of all kinds, I am able to furnish parties with any kind of machines or casting, at sho notice.

J. S. SCHOFIELD, Macon, Ga.

PRESS.

Horse Power Press! PRICES SAME AS HAND POWER PRESS.

This Press, of two-horse power, may be of either cast or wrought-iron screws: wrought-iron screws being out with three-inch pitch for Horse Power. It may be put up either with or without Iron frames—an iron frame being preferable, as it cannot break, and will never need repairs, as is the case with wood. In putling them up complete at my establishment, they do not differ from the Hand Power only in pitch of thread of screw, and different kind of levers for working. One horse can pack five to eight hundred pounds on this Press.

J. B. SCHOFIELD, Proprietor.

That planters may get their Presses in time, will take in payment warehouse acceptance, due October 1, 1870, at cost prices, as above.

Schofield's Patent Cotion Press received the First Premium at the Georgia

It was proved superior to anything for plantation cotton packing on the ground. It is put up more substantially, is more simple and efficient than any cotton press in use. There is nothing complicated or to get out of order about it, and after being used twenty years, will be as good as new. Lever presses wirn not on the south of the presses sould last season, I have not beard a complaint from one; but on the southray, am daily in receipt of lesters from the first planters of all the Cotton States certifying to their seasons.

Also --- Wilcox's Improved Horse Power,

TTON PRESSES,

E. L. MORSE'S PATENT. Manufactured at 203 Madison Street, - - - - MEMPHIS, TENN. A ND can be operated by steam, horse or hand power, as the planter sees fit, without extra expense. No labor required to tramp cotton in the box. This Press is more

POWERFUL, ECONOMICAL and DURABLE
